## CBU Engraved Plastic Number Plates

### Custom Font - Arial Bold

Arial bold font size 80 is available as a custom option with black lettering on a speckled grey plate. 3M 9448A adhesive is used for a quick, seamless application. Sized 1 ¾ W x 1 ½ H and suitable for interior and exterior use.

(Actual Size Shown)

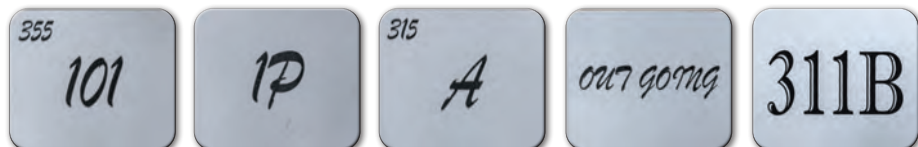

### Custom Font - Arial Outline

Arial outline font size 80 is available as a custom option with black lettering on a mirrored grey plate. 3M 9448A adhesive is used for a quick, seamless application. Sized 1 ¾ W x 1 ½ H and suitable for interior and exterior use.

### Completely Custom Font

Submit a custom font design. Using Corel Draw or Adobe Illustrator we can make your unique vision a reality, Sized 1 ¾ W x 1 ½ H and suitable for interior and exterior use. 3M 9448A adhesive is used for a quick, seamless application.

## Vinyl Number Decals

Any 4C or CBU mailbox unit can be customized with our vinyl number decals. These Weatherproof door decals fit the 1 3/4"W x 1 1/2"H identification on all CBU and 4C mailbox doors. They can be used to cover existing number plates or applied to new doors. Application takes seconds with the 3M heavy-duty peel and stick adhesive. Numbers are available with black print on silver labels or black print on white labels. Up to 4 characters per decal. Helvetica font only.

## Mechanically Engraved Doors

Standard mechanical engraving on the center face of the door. Numbers/letters are etched directly into the face of the powder coated aluminum door exposing genuine aluminum coloring.

Parcel doors are engraved inside the embossing only. Tenant doors can be either embossed or non-embossed (see images).

The engravable area is 10" long by 2" tall. A max of 5 numerical digits and/or 10 letters are available on a single non-embossed line. Up to two lines are available on non-embossed doors. Three fonts that stand 3/4" tall are available for both non-embossed and embossed tenant doors.

**Embossed Tenant Door**

Standard tenant door when ordering up to three engravable numbers

**Non-Embossed Tenant Door**

Please specify you are ordering Non-embossed tenant doors. Up to 5 numbers and/or 10 letters available on one or two lines of engraving

5 Digit Engraving

### FUT 1 SC FT SZ .73 in

Total Number Size:  $\frac{13}{16}$ " H x  $1\frac{5}{8}$ " W

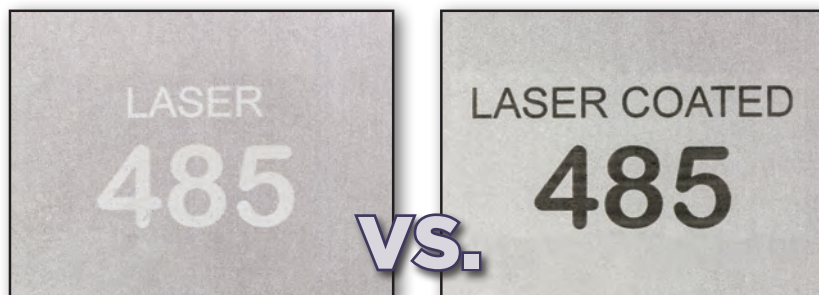

## Laser Engraved and Backfill Coated

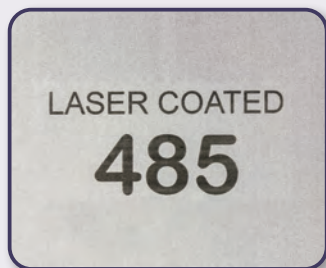

Laser coated numbers are like mechanically engraved numbers, except that laser coated numbers have cleaner grooves and a gray tone (see image). These are generally ordered for business settings where mechanical engraving is not high-end enough. Laser coated engraving offers a smoother finish. Laser coated engraving is also long lasting and UV stable for high sunlight installation. The product is coated with a ceramic emulsion and then laser engraved.

Laser coated engraving is available by special order only and extra time should be allowed for set up and processing.

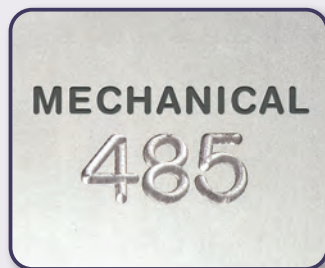

Laser coated premium doors are special order only. Please call for a quote.

### Anodized Aluminum

Anodized Aluminum with Ceramic Emulsion Treatment

### Mechanical Engraving

Mechanical Engraving, pictured for comparison

### Laser Colored

Laser Colored-Anodized-Aluminum, pictured for detail

### Embossed Laser Coated Engraving

Laser-coated engraving is standard in embossed boxes for easy braille reading. Up to four letters/numbers are allowed in the embossed box without the additional charge of a flat door.

## 4B+ Engraving

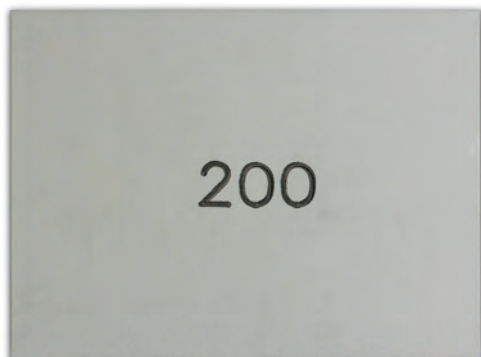

4B+ engraving is like mechanical engraving. Numbers are etched into the center/face of the anodized aluminum door revealing the true color of the aluminum underneath the anodization.

Customize up to 3 numbers or 10 letters in 3 fonts per line. Engraving is 3/4" tall, and up to two lines of engraving is possible.

Black Fill is available for an additional cost.

4B+ engraving does not offer recessed boxes for parcel lockers.

## Mechanically Engraved Doors - Black Fill

Black-Filled engraving offers an attractive alternative to customizing mailbox doors. Each door face is mechanically engraved to expose the aluminum beneath the door finish, then is filled in with a black dye to stand out. Any combination of numbers and letters can be etched in the surface. Engravable area is 10"W x 2"H. A max of 5 numerical digits and/or 10 letters are available on a single line, and up to two lines can be engraved. Available in 3 font styles.
